		positive	NNEG
6	Reflexivity	reflexive	REFL
		non-reflexive	(not marked)

7	Mood	indicative	IND
		imperative	IMP
		subjunctive	COND
8	Voice	active	~ACT
		passive	PASS
		necessity	~NEC
9	Tense	present	PRS
		past tense	PST.DFN
		past frequentative	PST.ITER
		future	FUT
		simple past	PST
10	Degree	positive	~POS
		comparative	~COMP
		superlative	~SUP
		diminutive	~DEM
11	Definitiveness	pronominal	~DEF
		simple	NDEF
12	Gender	feminine	F
		masculine	M
		neuter	N
		common	~CMN
13	Number	singular	SP
		plural	PL
		dual	DU
14	Case	nominative	NOM
		genitive	GEN
		dative	DAT
		accusative	ACC
		instrumental	INS
		locative	LOC
		vocative	VOC
		illative	~ILL
15		first	1

	Person	second	2
		third	3
16	Other	punctuation marks	PUNCT

**Note.** In the advanced search of the Pedagogic Corpus (<https://kalbu.vdu.lt/mokymosi-priemones/mokomasis-tekstynas/>), the user can see which categories are related to which part of speech. For example, if you search by grammatical category (or by a specific word / lemma and grammatical category) and enter a noun in the search box, only the grammatical categories that are relevant to nouns are activated and displayed in the white background of the drop-down menu; these include gender, number, case, and reflexivity. The categories which are not relevant to nouns (e.g. the verb form, type of the numeral, mood, tense, etc.) are disabled (appear in grey) and cannot be selected.
